

The scooter that goes in the car...
...but wants to go further...

*With new
Sterling® System Features*

Take it apart!

To get your Sapphire² ready for transporting, simply lift off the seat, lift out the batteries, and lift the rear handle to separate the front and rear of the scooter. It really is that simple! (and by the way it goes back together just as smoothly!).

Take it

Now the Sapphire² can be loaded into the back of the lightest scooters in its class. *Sterling[®] Lift* dual handles fitted to the front. These make lifting and handling t

The *Sterling[®] Lock* system is cable and connector free so there are no fiddly bits to deal with.

The tiller can be safely secured in

away!

Take it further!

...d into your vehicle. Luckily, as one
...s, this is no problem with the
...to the batteries and rear drive unit.
...he parts safer and more comfortable.

Now you're ready! Stretch out your legs and take advantage of the ***Sterling® Comfort*** package: three wheel legroom with four wheel stability, infinitely adjustable tiller, wrap-around handlebars and finger-thumb directional control all fitted as standard.

...position for transporting.

With its large batteries carrying you in style and comfort, the Sapphire² is the scooter you'll want to go further on!

STERLING[®] SAPPHIRE²
